Australian engineer and eco-warrior Steve Posselt has paddled his kayak 1,000s of kilometers overseas and at home to highlight climate impacts. Right now he is paddling 1,200km down the NSW coast, giving talks and collecting signatures on the Climate Emergency Declaration petition along the way. He will then put his kayak on wheels and drag it 180km to Canberra to deliver the petition on February 25, 2017.

**CLIMATE
EMERGENCY
DECLARATION**
